

SERVICE SPECIFICATION SHEET

Diesel Generators

Standby Power — Installation & Maintenance

Overview

Turnkey standby and prime-power diesel generator installation and servicing. We deliver complete schemes — fuel systems, exhaust, acoustic housing and controls — commissioned and load-bank tested to guarantee reliable backup power exactly when it is needed.

What We Deliver

- Standby & prime-power generator installation
- Fuel systems, bunded tanks & fuel polishing
- Load bank testing & commissioning
- Servicing, filters, oil & coolant changes
- Exhaust, acoustic & weatherproof housing
- 24/7 breakdown response & maintenance cover

Technical Specifications

Capacity range	20 kVA – 2,000 kVA+
Fuel	Diesel / HVO compatible
Configuration	Standby, prime, N+1 redundancy
Testing	On-site load bank to full rated load
Compliance	BS 7698 / ISO 8528, Stage V emissions
Maintenance	Scheduled servicing + fuel management
